- Fast loading
- Stable advertising format proven over many years

VIDEO ADS

Advertising displayed through video content and short video fragments.

ADVANTAGES

- High user engagement
- Builds brand awareness
- Low bids and strong CR in many geos

PROGRAMMATIC

DAO.AD brings together trusted partners to provide maximum traffic monetization opportunities for its users.

WE OPERATE AS BOTH AN SSP AND DSP, SUPPORTING ALL MAJOR ADVERTISING FORMATS:

PUSH	POPS	VIDEO	INPAGE

DSP

As a DSP, we purchase and filter traffic using our own anti-fraud and anti-bot technology. Our system detects and removes low-quality traffic, helping advertisers achieve better campaign performance and more reliable results.

SSP

As an SSP, we supply pre-filtered, high-quality traffic to advertisers. We continuously evaluate traffic sources, exclude underperforming publishers, and maintain strict quality standards based on performance metrics and user feedback.

ANTI-FRAUD

NO BOTS — HIGHER PROFITS!

Traffic quality has been one of our top priorities since day one. That's why we developed our own anti-fraud and anti-bot system to protect advertisers from invalid traffic.

The **Dao.ad** anti-fraud technology analyzes multiple data points in real time to detect, filter, and block bots, fraudulent activity, and low-quality traffic sources.

As fraud tactics continue to evolve, our system is continuously updated and improved to identify new bot patterns and emerging threats.

SERVICE TOOLS

CREATIVE FREEDOM

Dao.ad is a self-service platform where users have the freedom to bring their ideas to life, using features and flexible options (Ads delivery manager, Creative & preview menu, Targeting menu, Limits menu, Postback menu and so on).

The only limit is compliance with content policies 😉

DAO.AD 24/7

SUPPORT

Users and traffic quality are our top priorities. That's why we provide continuous support to our partners around the clock, setting a strong example of responsive and responsible service.

Fast and competent replies — from support tickets in the dashboard to communication in web forums — have always been a core part of our approach to user support.

Fast payouts on request for publishers, as well as quick moderation of ad campaigns for advertisers, are part of our team's everyday operations.
